

## FORDS 2010

Louanne Currence, RHIT, CTR

---

---

---

---

---

---

---

---

## NAACCR

- These changes are found in Data Standards and Data Dictionary, 14<sup>th</sup> ed.
- NAACCR Version 12 to be available 1/1/10
- Expanded from 6,694 to 22,824 characters

---

---

---

---

---

---

---

---

## Simple Changes

- Address – expanded characters both Current & @ Diagnosis
  - # & Street to 60
  - City to 50
  - Supplemental to 60
- AJCC Items – c & p T,N,M, group stage
  - From 2 to 4 characters

---

---

---

---

---

---

---

---

## Simple Changes

- CS Extension & Lymph Nodes
  - Expanded from 2 to 3 characters
- Follow-up Contact expanded to 60
  - Name, # & Street, Supplemental
- Laterality
  - New code "5" for midline

---

---

---

---

---

---

---

---

### Simple Changes

- Name & Punctuation
  - Expanded to 60 characters
  - Allows blanks, spaces, hyphens, apostrophes
- Rads # of Treatment to Volume
  - Expanded to 3 digits

5

---

---

---

---

---

---

---

---

### Simple Changes

- Race code 09 (Asian Indian, Pakistani)
  - 15 Asian Indian or Pakistani
  - 16 Asian Indian only
  - 17 Pakistani only

6

---

---

---

---

---

---

---

---

### Text Expansions

- 100 characters
  - Histology Title, Primary Site Title, Occupation, Industry
- 1000 characters
  - Dx procedures – lab, OP, Path, PE, Scopes, X-ray/scans
  - Remarks
  - Staging
  - Treatment – Surgery, RT Beam, RT Other, Chemo, Hormone, BRM, Other

7

---

---

---

---

---

---

---

---

### Date Conversions

- Transmitted as CCYYMMDD
- Unknown fields = blank
- Flags associated with date to show why no date is present

8

---

---

---

---

---

---

---

---

### Déjà vu Dates

- Date Chemo
- Date Hormone
- Date BRM
- To reconstruct sequence of FCOT modes

9

---

---

---

---

---

---

---

---

### New Date Fields

**Date Case Initiated**

- When electronic abstract initiated
- Used to assess timeliness for abstracting and reporting

**Date Case Completed**

- Abstractor decides tumor report complete
- Case passed all edits
- Allows wait for treatment
- Date Case Completed – CoC
- Specific items completed

10

---

---

---

---

---

---

---

---

### New Surgical Approach

- Surgery Primary Site at This Facility
  - 0 No surgery primary site here
  - 1 Robotic assisted
  - 2 Robotic converted to open
  - 3 Laparoscopic
  - 4 Laparoscopic converted to open
  - 5 Open, NOS
  - 9 Unk if surgery, no info available, DCO

11

---

---

---

---

---

---

---

---

### New Various Codes

**Lymph-Vascular Invasion (LVI) in Path Report**

- 0 - LVI not present, not identified, absent
- 1 - LVI present, identified
- 8 - N/A
- 9 - Unknown

**Marital Status**

- 1 - Single (never married)
- 2 - Married (incl common law)
- 3 - Separated
- 4 - Divorced
- 5 - Widowed
- 9 - Unknown

12

---

---

---

---

---

---

---

---

### Inpatient Status

- Was there an Inpatient stay for most definitive therapy?
  - No Tx – was there an Inpatient stay for diagnostic evaluation?

0 – Patient was never an inpatient  
 1 – Patient was inpatient  
 9 – Unk if patient was inpatient (central registry consolidated cases)

13

---

---

---

---

---

---

---

---

### Class of Case - Analytic

- 00 – Dx this facility AND all tx or decision not to tx done elsewhere
- 10 – Dx AND part/all FCOT or not to tx at this facility NOS
  - 11 – Dx staff physician AND part FCOT at this facility
  - 12 Dx staff physician AND all FCOT or not to tx at this facility
  - 13 Dx AND part FCOT this facility
  - 14 Dx AND all/part FCOT this facility, NOS

14

---

---

---

---

---

---

---

---

### Class of Case - Analytic

- 20 – Dx elsewhere AND all/part FCOT done this facility NOS
  - 21 Dx elsewhere AND part FCOT this facility
  - 22 Dx elsewhere AND all FCOT done this facility

15

---

---

---

---

---

---

---

---

### Class of Case – Non-Analytic

Pt appeared in person at facility

30 – Dx AND all FCOT elsewhere AND reporting facility participated in dx workup (EX consult only, staging WU post dx)

31 Dx AND all FCOT elsewhere AND facility provided in-transit care

32 Dx AND all FCOT elsewhere AND pt this facility w/recurrence or persistence

33 Dx AND FCOT elsewhere AND pt this facility w/disease hx only

**Not Required by COC**

16

---

---

---

---

---

---

---

---

**Class of Case – Non-Analytic**  
**Pt appeared in person at facility**

34 Type case not required CoC, has initial dx AND part/all FCOT tx at facility (EX benign colon tumor)

35 Case dx facility before Reference Date – dx AND part/all FCOT at facility

36 Type case not required CoC, has initial dx elsewhere AND part/all FCOT tx at facility

37 Case dx facility before Reference Date – dx elsewhere AND part/all FCOT at facility

38 Dx at autopsy at facility (No hint CA pre death)

**Not Required by COC**

17

---

---

---

---

---

---

---

---

**Class of Case – Non-Analytic**  
**Pt does NOT appear in person at facility**

40 – Dx AND all FCOT given staff doctor's office

41 Dx AND all FCOT given 2 or more staff doctor's offices

42 Non-staff doctor or non-CoC clinic or other facility, not part reporting facility, accessioned by reporting facility for dx and/or tx (EX: hospital abstracts cases for independent RT)

43 Path or other lab specimens only

**Not Required by COC**

18

---

---

---

---

---

---

---

---

**Class of Case – Non-Analytic**  
**Pt does NOT appear in person at facility**

49 – Death certificate only

99 Case not required by CoC, unknown relationship to facility

**Not Required by COC**

19

---

---

---

---

---

---

---

---

**New Treatment Status**

- Summary of status for all treatment modalities
- Used with Date of Initial Rx and/or Date 1<sup>st</sup> Course Rx
- Used as summary for ALL treatment fields

0 – No Tx	2 – Active surveillance
1 – Tx given	9 – Unk if Tx given

20

---

---

---

---

---

---

---

---

### Path Fields – Central?

The following can be gathered for up to 5 different reports

- Path Report # - assigned by laboratory
- Path Order Physician License #
- Path Ordering Fac #
- Path Date Specimen Collected (not date read or report typed)
- Path Report Type

21

---

---

---

---

---

---

---

---

### Path Report Type

• 01 Pathology	• 08 Cytogenetics
• 02 Cytology	• 09 Immunohistochemical Stain
• 03 Gyn Cytology	• 10 Molecular Studies
• 04 Bone Marrow (bx/asp)	• 11 Flow Cytometry, Immunophenotype
• 05 Autopsy	• 98 Other
• 06 Clinical Lab Blood Work, NOS	• 99 Unknown
• 07 Tumor Marker	

22

---

---

---

---

---

---

---

---

### New Grade Info

Grade Path System	Grade Path Value
2 – Two grade system	1 – Recorded as Grade I or 1
3 – Three grade system	2 – Grade II or 2
4 – Four grade system	3 – Grade III or 3
Blank – Unk, Not 2/3/4 grade system	4 – Grade IV or 4
	Blank – Unk, No 2/3/4 system grade available

23

---

---

---

---

---

---

---

---

### Education

- **What's New for FORDS in 2010?**
- CoC Webinar, Thursday, November 12, 2009 at 10:00 AM Central Time
- **CE Credit:** This course is eligible for 2 Hours CE Credit

**Presenter:** Jerri Linn Phillips, MA, CTR
